THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State it is especially valuable as an advertising medium

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those on the Comstock.

HAWK-EYE ITEMS.

It is said that the sting of a hornet will cure paralysis. We believe it will for about five minutes.

Emma Abbott sings in a $25,000 diamond necklace. No wonder there's music in notes of that denomination.

A new kind of ulster has just been invented, with snow sheds all around the collar and a box tunnel down the back.

A Chinaman with blonde hair is the latest San Francisco novelty. Turn him loose in the lecture field; is he not by education, birth and nature a yellow cue tionist?

There is one happy thing in store for the country. This Indian bureau business and the vexed question of its transfer will soon be finally settled. There won't be any Indians left to bureau.

If it wasn't for the salt barrels ranged along on the sidewalk in front of the country stores, some men would never be able to sit down and wink at the sun twenty-one hours a day, all their lives.

The other day a man who had just signed his first naturalization papers with his X, frankly admitted to the clerk of the court, that the American system of public schools was a hopeless failure.

Eggs are now about fifty-seven cents a dozen, and there is a ravenous demand for them at the hotel tables by the traveling public. When they get down to about six cents you can't hire a traveling man to look at one.

Speak gently, speak gently; no matter how much bigger and broader across the shoulders than yourself the other man is, nor how cross he looks, speak gently. The bigger and broader and crosser—the gentlier.

Horses are rare and very expensive in ancient times, and the fact of their rarity explains the omission of a special commandment from the decalogue, restraining men from solemnly swearing to the biggest kind of lies when trading horses.

THE PRESIDENT'S VISIT TO CALIFORNIA.—The Washington correspondent of the Chicago *Tribune* says: The President's trip to California which would have enabled his friends at Chicago to have seen him, as he passed through early in April, has been postponed, until it can be seen how long Congress remains in session. The party would have included the President and Mrs. Hayes, Secretary Thompson and wife, Mrs. McCrary, the wife of the Secretary of War, General Sherman and daughter, and Private Secretary Rogers. Mrs. Hayes is very anxious to visit the Pacific Coast and Secretary Evarts assures her that the difference of opinion will be so compromised as to insure an adjournment early enough in April to admit of the party's leaving. But Mrs. McCrary (whose husband is of stalwart order) does not believe it, and as she is anxious to see her twin brother, who lives in California, it is probable that she will leave here in about ten days with Gen. Sherman and daughter. The General goes to inspect the forts and garrisons and to see his daughter who is the wife of Captain Fitch, U. S. N. now stationed at St. Louis.

TEACHERS' EXAMINATION.

THE REGULAR SEMI-ANNUAL EXAMINation for teachers' certificates will be held at the School House, in Reno, on Friday and Saturday April 18th and 19th, and beginning at 10 o'clock A M.

NEWSPAPERARCHIVE®
NEWSPAPERARCHIVE®

DAILY NEVADA STATE JOURNAL

C. C. POWNING, EDITOR AND PROPRIETOR

SATURDAY.....APRIL 5, 1879.

THE Government has compromised with the Truckee timber depredators, the defendants paying the value of the timber and the costs of the suits.

HON. LEVI P. LUCKEY has resigned the secretaryship of Utah. Government officers do not remain long in office in that territory.

TROY DYE, the Sacramento murderer, is a raving maniac. He will probably go to the Insane Asylum until in better condition for that other place.

NEW YORK will probably hold the rank of "The Empire State" for another decade. It is thought that the next census, to be taken next year, will show a population of five millions souls.

PORTER'S arrearage pay and allowance amounts to over $130,000. His friends disclaim in his name, any intention of asking for back pay, though reinstatement entitles him to it for sixteen years.

"WE have captured the Capital," and now Voorhees has introduced a bill to place Gen. Shields a Brigadier on the retired list. When that is done the General will not seek to be U. S. Senator from State No. 4.

IT is rumored that the Pacific Mail Steamship Company is negotiating with the Centarl Pacific Railroad Company for the sale of the Australian line of steamers. It is affirmed that the line to Australia is not profitable, there not being trade enough between Australia and San Francisco to pay the $8,000 expenses for the round trip and give a profit.

GENERAL GRANT COMING IN AUGUST. —A letter has been received at the San Francisco *Chronicle* office from John Russell Young, the well-known journalist, who is accompanying General Grant in his trip around the world. The letter is dated "Allahabad (Hisdostan), February 22d," and states that General Grant and party will be in California in August or perhaps earlier.

THE NATIONAL PARTY PROGRAMME. —Dewes, Chairman of the National Party Committee, was interviewed by a reporter at his home in Pottevills, Pa., recently. He said the party would certainly have a Presidential candidate next year, and he had hopes of success. He thought Butler would be a candidate. The South and West were unanimous for soft money, as witness the progress the Greenback party made last year, the election by large majorities of Weaver and Gillette in strong Republican districts of Iowa, and of Col. Lowe in a still stronger Democratic district of Alabama. In California the soft money sentiments were spreading rapidly, and the National party was growing strong.

A FEATURE of the proceedings in Congress this week on the main issue was a "stalwart" speech made by a hitherto unknown Representative named Houk, the only Republican member of the delegation from Tennessee. He is a native Southerner and created a decided sensation by asserting, with a cool earnestness of manner, that the majority of the Southern States are to-day Republican when not intimidated and bull dozed, and that whether the law allowing the presence of troops at the polls is constitutional or not, he should refuse to vote for its repeal until the people all over the South, black and white, had a fair chance at the polls.

GLOWING REPORTS ABOUT DAKOTA. —Governor Howard of Dakota says the immigration to the region around Yankton and to the country along the Northern Pacific road has been enormous during the past year. Said the Governor to a reporter: "I believe that our population has been increased fully 50,000. People in the East are begining to find out that we have the finest wheat land the sun ever shone upon." The Governor thinks the territory has one hundred and fifteen thousand people, enough to make a State—but they don't want to be admitted to the Union yet. We are, he said, just finding out where the wheat region of the continent is. Before many years one-half of all the wheat grown in America will be produced North of the 43d parallel.

THE WEAKNESS OF SAVINGS BANKS.

The development in the large defalcation of the Treasurer of the Reading (Mass.) Savings Bank, by which many of its depositors are ruined, is only another instance of the inexcusable mismanagement of these institutions. All corporations of like character are nominally chartered for the purpose of taking charge of the small earnings and savings of the most industrious and economical class of our citizens; yet the history of a great many savings banks shows that the accumulated deposits are used for speculation—either by treasurers and directors, or by some persons connected with their management.

Men who became trustees of the savings of others, are bound by honor and concience to guard and protect these savings in every way possible. The money is not theirs; they have no right to reinvest it in any sort of speculation; they have no possible privilege of taking it temporarily for their own use; nor have they the right to loan it outside of the direction of the general board of management. But the long catalogue of exploded and ruined savings institutions exhibits the fact that confidential officers do frequently use the funds intrusted to their keeping—and that, too, against legislative safeguards and penalties, which are naturally supposed to be ample for restraining the public.

The trouble is precisely here: the board of trustees are chiefly selected because of their supposed wealth; not on account of any sterling integrity of character; not because they are shrewd and prudent business men; not because they will devote sufficient time to inspect the investments, and to audit the books of the treasurer and his clerks. In fact, the trustees and nominal directors of these institutions rarely trouble themselves about the business and minutiæ of their trust; they leave the management to the treasurer, to his clerks, etc. By this irresponsible method or savings bank management (rather mismanagement,) the treasurer, and his clerical assistants, do as their lack of honor and greed of gain dictate. Knowing that there is little or no inspection, supervision nor auditing in the establishment, they handle the trusts and funds as suits their personal desires and convenience. It all right; they have "made a hit;" have pocketed a large sum of money, gained through a breach of trust (the mildest way of expressing it;) but if the speculations go awry, then the sacred institution "goes up," the frugal depositors are ruined, the soldier's widow is robbed, orphan children are plundered, and old age has its last crutch broken and tossed over the ditch!

KNOCKING AT THE DOOR.

The Salt Lake *Herald* declares no good reason can be found for longer keeping Utah out of the Union, and that neither Nevada nor Colorado had as good right to go into the Union as Utah had when they were admitted. If Utah will discontinue her polygamous practice no one will refuse consent to her admission.

NEW SCHOOL BUILDING. — The Eureka *Sentinel* has the following concerning the new school building to be built at the Base Range: The Trustees of the public school have determined to build the new school edifice on the site of the old one, on O'Neil avenue. The new building will be two stories high, of brick, and will be 50x80 in size. The building will be commenced as soon as the plans and specifications can be decided upon."

THE SIERRA NEVADA. — Of the workings of the Sierra Nevada the *Enterprise* informs us as follows:

It is the intention of the present management of the Sierra Nevada mine to thoroughly open their ground when the main incline reaches the 2400 level. Three levels will then be opened up at once, and the best and worst will at once be known. These levels will be the 2200, 2300 and the 2400. On reaching the 2400 level it will be necessary to sink a sump, open a station and run drifts north and south to proper distances. It will also be necessary to put in an ore chute, as Superintendent McKenzie says he will not crosscut until everything is in perfect order for said work. He will then at once show up the mine. He will certainly be in a position to explore a vast deal of ground in a very short time. To do all this work will require two or three months. The flooded mines will be drained before or about the same time that this crosscutting will take place, and in the Ophir and at other points along the Comstock crosscutting will be in order at about the same time.

OUR WASHINGTON LETTER.

WASHINGTON, March 27th, 1879.

The excitement of Saturday, Sunday and Monday which largely grew at first out of Springer's announcement at a Dmocratic caucus, and was continually aggravated by the thousand and one sensational rumors flying about, has moderated down to about our usual level. Though some were misled into supposing Springer's declaration indicated a genuine conversion from the gall of bitterness of Bourbon malignancy in which he has wallowed all the days of his public life, many others from the very outset believed it covered a trick and this view became general before the close of the week, as a knowledge of the intrigues of the Democratic masses became more widely diffused. The situation at the close of the week was substantially as follows: Those carrying the

CONFEDERATE DOUGHFACE

programme into practical effect had been secretly plotting for days to devise a plan for capturing the President, or at least to secure his neutrality as between Democrts and Republicans in Congress on the political riders with which the two pending appropriating bills were to be loaded down. Negotiations were opened with him and persistently pushed; but the boastful propensities of some of the over-sanguine negotiators gave Republicans an inkling of what was going on. From that time the excitement continued to increase until Republicans became satisfied that the boasts of the opponents to the effect that the President had committed himself to a modification of the superior law that practically amounted to a repeal and an absolute surrender of the Republican position, were without foundation in fact. But though every one is now apparently convinced that the President has not formally given a single pledge to the effect claimed, it would be a patent misrepresentation of the situation to say that Republicans are free from doubts as to the future course of the Executive, and a very panicy feeling prevades Republican circles from highest to lowest.

The action taken at the joint meeting Tuesday of the House and Senate caucus committees confirmed the apprehension that they would adhere to the course marked out by their predecessors of the Fourth Congress relative to the

TEST OATH LAW,

That relating to soldiers at the polls and the superior law. There was cordial agreement between the representatives of the two Houses that the riders should be pushed through at every hazard and the Democratic caucus yesterday of both House and Senate endorsed the decision of their respective committees, Speaker Randall fervently shouting amen to this Mexican programme. There is no apprehensions of a back down on the part of any Republican outside of the White House, charged with the duty of resisting these revolutionary encroachments. If numerical superiority has inspired the majority to push their schemes for utilizing the armies of fraudulent voters abounding in our large cities, the minority will go into the struggle upheld by the conviction that their cause is just and that they constitute the inner and last line of defense against the Confederate hordes and their allies in their mad rush for the U. S. Treasury and to sweep away the last distinction between treason and loyalty and scatter to the winds the few friends remaining to us from the late war. The

MORAL STATUS

Of Democracy is indicated in the character of the men who have been chosen to fill the higher offices of the House and Senate. No one has forgotten the trouble the House had with its Doorkeepers and others. Now comes ugly rumors criminally affecting the men chosen the other day by the Democratic Senators to fill the positions of Secretary and Sergeant at-Arms of the Senate. The reverberations from

SITTING BULL'S

Slogan of war have reached the War Department, awaking a feeling of distrust among the officials there over the possibilities of another all Summer campaign against the chronic hostiles. The foul details of the

CAMERON-OLIVER

Suit has roused the social world to a high pitch of hysterical excitement and expectancy and the end is not yet.

LOGAN.

A. H. MANNING—Has received a car load of Cumberland coal, Cave Valley lime, plaster and hair. Also has his tin shop in working order in the rear of his brick store is prepared to do all kinds of work in that line. *

IMPORTANT.

SANTA ROSA, CAL. MARCH 7, 1879.

C. F. Chamberlin; Agt. California; Fire & Waterproof Paint Co., of Oakland California, Dear Sir:

I wish to add my testimonial to the many, of the Fire Proof qualities of the California Fire and Water proof Cos. paint, (Rice & Davis Pat.)

Last fall I had the shingle roof of my brick wine cellar painted with one coat of your fire proof paint, as well as the double wooden doors, separating the same, from the frame engine house adjoining.

At the fire March 1st which destroyed all my frame buildings, the paint was put to a severe test.

Its fire proof qualities were the wonder and admiration of all who who witnessed it. For over one half hour the roof resisted the effects of the flames of the adjoining buildings.

Water thrown upon it raised in clouds of steam, as from hot iron. The Engine House fell against the wooden doors and are entirely consumed, and the wooden doors stand there to day charred one half through, and if it were not for the wonderful fire proof qualities of your paint my wine cellar would have been in ashes.

I would recommend to all to paint their roof and warehouse doors with fire proof paint. I have tried it and know whereof I speak.

Yours Truly,
I. DETURK.

We were present at the fire and freely corroborate the above testimony in every particular. We regard the fire proof paint as the most wonderful substance extant, and knowing its ability to resist ignition by exposure to flames or burning shingles have no hesitancy in recommending it to the public. A building painted with it is pretty well insured. It has the endorsement of the Underwriters of San Francisco, who acknowledges that it has all the merit claimed for it.—*Editor Santa Rosa Times.*

THE London *Figaro* says; The telectroscope, the invention of a M. Senlecq, will, it is said, transmit actual scenes from immense distances, and reproduce them before our eyes with a similar fidelity to that with which the telephone brings to our ears transmitted sounds. The views will be sent by telegraph, so to speak; and should the apparatus be perfected, it will enable an entertainer, it would appear to bring before an audience at St. James Hall, let us say actual scenes in Rome and Athens, including the falls of Niagra, of which, by an association telephonic apparatus, the very roar could also be heard.

THE Austin *Reveille* gives the following news of interest:

The Commissioners of Nye county, on the 24th ult, made the tax levy for 1879, as follows; For county purposes, $2 55; State tax 55 cents, making a total of $3 10 on each $100 taxable property One of the items, Building Fund, is 50 cents on the hundred, which swells up the amount so seemingly large, Lander county taxes for 1879, will be about $2 25 on each one hundred dollars taxable property, making a difference of eighty-five cents.

BORN.

BOYD—In Reno, April 2, 1879, to the wife of D. B. Boyd a daughter.

Local Brevities.

There are eight prisoners in jail.

We had another rain storm yesterday morning,

Beef cattle are coming in from the Northern valleys in large droves.

Stocks are still soft. There will be no improvement until after the defeat of the new California Constitution.

The water was shut off yesterday, owing to the C. P. fixing a culvert, at the head of the Water Co's ditch

Mrs. Harney is going below to morrow night for her Spring stock of millinery and fancy goods. It will be the most complete one ever selected for this market.

Work is being pushed as fast as possible on all buildings. Several will be ready for occupation next week, and by the 1st of May the streets will look something as they used to.

Personal.

Hon. Geo. Wilson, of White Pine county, was in town yesterday. He is now en route home to his constituency, having been visiting friends in this section of the State since the adjournment of the Legislature. He thinks of making Bodie his future home

D. O. Mills went up to Virginia yesterday morning.

E. Chielovich is in town looking after the Wine House affairs.

THE first Spring lamb of the season caught the reportorial eye hanging in front of Schaeffer's market. It looked fat, juicy and toothsome.—*Gazette.*

THE *Gazette's* reportorial eye must still be hanging, luscious and juicy, on that hook where it was caught by the lamb; at least that paper does not mention its removal from that rather unusual position.

THE Relief Committee expect to finish up to-day. What provisions and clothing remain will be sent to the Orphan's Home at Carson, and about $2,000 of the money appropriated by the State will be returned.

A NEAT set of Diamond Studs, all matches, pure white, worth $75, for $37, at Uncle Harris', 221 Kearny Street, between Bush and Sutter.

MORRIS ASH has closed his saloon. He will take a rest until more comfortable quarters are to be had.

THERE is a message in the W. U. Telegraph office for R. H. Crocker.

The "Journal's" Friends.

Our friends have been generous in their notices of our new volume. The Truckee *Republican* says:

The Reno JOURNAL enters upon its eleventh volume. These journalistic milestones are occasions of considerable significance. The case in point signifies that enterprise in newsgather, reliability in statements of fact, and close attention to the business interest of Reno, has merited the continued good will and patronage of the citizens. It means that despite all enemies and villifiers, the JOURNAL is to day the best paper in Washoe county, the most permanent, and the surest of success. Senator Powning has abundant cause to be proud of his live, progressive and popular journal.

The Austin *Reville* very kindly remarks:

The Reno JOURNAL has commenced on its eleventh volume and sixth year. It has been an earnest advocate for the interest of Reno and Washoe county, and merits a happy support, irrespective of party. A tried and trusty friend should not be deserted without a good cause Whatever opposition and enmity may be employed to squelch the JOURNAL, the sequel will prove that it will outlive all the other papers in the county in which it is published. Powning has ability, grit, and a reserve fund, and merits united support.

The *Enterprise* has this:

The Reno JOURNAL has entered upon the sixth year of its existence. It is a faithful friend of Washoe county and deserves the generous support which it is receiving.

The Carson *Tribune* this:

The Reno JOURNAL has entered upon a new volume. It is an integral part of Washoe County, and deserves well of its inhabitants.

The Eureka *Sentinel* says.

The Reno JOURNAL has entered upon the sixth year of its existence. It has done much for Reno and Washoe county, and deserves the continued support of those it has served so well. The *Sentinel* wishes the JOURNAL long life and the greatest prosperity.

A Little Off.

The *Gazette* of last evening says: "A. A. Longley has engaged John Courtney to build a stone enclosure around the grave of Mrs. Longley in the Masonic cemetery." That news is *three* weeks old, neighbor.—*Journal.*

The JOURNAL's local must be cousin german to the relicit of the late Sandy Bowers, as Courtney was only employed to do the work yesterday. —*Gazette.*

Well, but we read the item in the *Gazette* at the time referred to.

Bargains in Clothing.

Those who want bargains in clothing will do well to call at the old and well-known store of M. Nathan. In getting goods there you are trying no experiments. You know what you are getting, for he keeps no shoddy clothing. The man who cannot find what he wants at Nathan's cannot find it in the State. See his advertisement.

Coat's Restaurant.

A few more boarders can be accommodated by Mark Coats, at his restaurant. Mark keeps a place where a square meal is a square meal, and when a boarder leaves, he always speaks a good work for Mark. All the delicacies of the market are found on the table, and every attention paid to patrons.

Too Muchee, No Likee.

Our farmers are not well pleased with so much rain. Occasionally it is very welcome, for it is far superior to their system of irrigation. But when it melts the snow on the mountains, and causes a fear of scarcity of water during the Summer months, the feeling is not one of genuine satisfaction.

Re-Union.

The fifth annual re-union of the El Dorado county society will be held at Badger's Grand Central Park, Oakland, on Thursday, April 24th. We acknowledge the receipt of a complimentary ticket.

F. C. A.

The Farmers' Co-operative Association will resume business next week. Orders have been given for the shipment of the new stock.

All Lock Boxes.

There will be no call boxes in the new Postoffice. All will be lock. The Postmaster will be thereby saved annoyance, and folks can get their mail at any time.

Brick.

Mr. Talbert will burn a kiln of 100,000 brick, and has leased a place near the Auburn Mill. There is a body of splendid clay near there, which will make a superior article.

GUSTAV EDELMAN has opened a shop on Sierra street, opposite the William Tell House, and is prepared to make boots and shoes, and do all kinds of repairing. Read his advertisement and then call and see him.

CREAM OF THE TELEGRAPH.

An English commission has been sent to Upper Egypt to investigate the reports of several thousand deaths by starvation.

Conant, the defaulting cashier of the Eliot railroad bank, was discharged Friday on a motion to quash the indictment, but was immediately rearrested, and held in $20,000 bonds

A dispatch from Bavenna says the Italian Government recently received an anonymous letter giving warning that an attempt would be made to assassinate Queen Victoria between the frontier and Turin.

General Walker states that the main body of the census will be undertaken next Fall. There will be two or three months' preparation, and the census itself will be taken in a month's time.

The ship Niobe, which sailed Thursday from New York for Australia, took nine locomotives, ninety-nine organs, 403 packages of clocks, and a large assortment of agricultural implements for the exhibition. Another ship is to follow.

The British authorities at Sierra Leone have sent a gunboat with a protest to the French officer conducting the occupation of Matacong. The French claim that the island was ceded to them in 1878. The English claim possession since 1826.

Dawes, Chairman of the National Party's Committee, was interviewed by a reporter at his home in Pottsville, Pennsylvania, recently. He said the party would certainly have a Presidential candidate next year, and he had hopes of success. He thought Butler would be a candidate.

A severe tornado passed over Brown Summit, North Carolina, Thursday. Several houses were blown down, scattering furniture broadcast. One boy was killed and many persons seriously injured by falling timbers. Trees and fences were prostrated and wheat damaged some.

Negotiations have been closed by which O'Leary engages Gilmore's Garden for October for pedestrian purposes for $8,000. A six days' "go do as you please" match, will take place there some time during that month. the winner to have $5,000 and the belt, and to challenge Rowell the pedestrian, for the Astley belt.

The Egyptain officers sent to break up the slave depots at Bahr Elgazal Kordofan report an engagement with Sefulman, the chief slave dealer and owner of 25 depots, in which women alone to the number of 10,000 were waiting transportation into Egypt. The Egyptians forces numbered 3,000 and the Arabs 10,000. The Arabs were defeated.

The United States steamer Plymouth, which sailed from Boston on March 15th for a cruise to the West Indies, has returned, yellow fever having broken out when 300 miles south of Bermuda. Egan the boatswain, died of the disease. The ship came from the West Indies last Autumn with yellow fever on board, and it was thought that fumigation and the frosts of the Winter had destroyed all the germs.

An important point was brought out in the examination of Duncan S. Walker, Secretary of the Democratic Congressional Committee, by the Wallace Committee yesterday. He was forced to admit that during the last campaign the Democratic Committee had used Government envelopes to send out a million printed campaign documents, and that the work necessary to be done to fold these documents and address them, had been performed by employes of the House, who are paid by the Government. To save postage Democratic members franked a large number of these documents.

THE public schools will open again on Monday—the scarlet fever scare having about subsided.

THE hills this side of Virginia are covered with snow.

DAN BOYD is a happy father.

THE National gold medal was awarded to Bradley and Rulofson for the best Photographs in the United States, and the Vienna medal for the best in the world. 429 Montgomery St., San Francisco. *

QUEEN'S New Preparation Syrup of Figs. An elegant substitute for Castor Oil and salts. It is a thorough, gentle purgative and pleasant to take. For sale only at Queen's Drug Store.*

DRESSMAKING.—Mrs. Caldwell and Mary Taylor will do all kinds of Dressmaking at reasonable rates. East of V. & T. round house. *

THE UTAH SOUTHERN EXTENSION.

Utah is doing a good deal of railroad building, now being engaged in the construction of the Utah Southern extension, a road intended to have direct communication with San Francisco, through connection with the Southern Pacific road. In the Salt Lake *Herald* we find the annexed information:

Hon. John Sharp returned a day or two ago from a visit of inspection to the work of grading on the extension of the Utah Southern railroad, states that a large force of men is actively employed on the work, and that by two weeks the grading of the road will have been completed as far as Chicken Creek, a distance of thirty miles, from which point the construction of the Utah Southern railroad extension will commence, the latter work to be done under the company recently organized. Ties are coming in abundance and faster than were expected; while there is a large supply of rails already on hand. The work of laying the rails will commence at York on Monday, and Bishop Sharp states that by the first of June next he expects to have the road in running condition as far as Chicken Creek, where the labor of the old company ends

While South, the Bishop made a trip through Sevier cañon, and will immediately set a corps of engineers at the work of locating the route of the extension from Chicken Creek, and as soon as this is accomplished the work of grading will commence on this route The intention is to push the whole road right ahead until the line of the Utah Southern railroad will have been extended as far as Frisco.

ANCIENT EGYPTIAN QUARRYMEN

In quarrying the enormous blocks from which the marvelous colossi in our museums were sculptured, the Egyptians used a number of metal wedges, which were struck at the same instant along the whole length of the stone. Sometimes the wedges employed were of highly dried wood, which being driven into holes previously cut for them by a chisel, and then saturated with water, split the stone by their expansion. This method by expansion could not well be adopted, except on the upper surface of the stone; insomuch that the wedges driven into the sides were impelled by the hammer only. To separate the lower part of a ponderous mass from the rock, the quarrymen are supposed to have cut under it, leaving long pieces here and there to support it like beams, which traversed its whole depth from front to back; and then having introduced wooden rafters into the open spaces which were cleared away, they removing the remainder of the stone, and the block rested on the wood.

ONE of the most completely discouraging and demoralizing things that can happen to a man, just after he has got himself settled down in a railway car with a good book, and a settled determination not to be disturbed, is to have a plaid suit with a soft young man inside of it, come up to him and evince its intention of opening a conversation, by saying, "Haw—aw—" three times in a most intelligent manner

A Disease that Wrecks the System.

Every function is deranged, every nerve unstrung, every muscle and fiber weakened by fever and ague It is, in fact, a disease which if unchecked, eventually wrecks the system. In all its types, in every phase, it is dangerous, destructive. Stupor, delirium, convulsions, often attend it, and cause swift dissolution But when combatted with Hostetter's Stomach Bitters its foothold in the system is dislodged, and every vestige of it eradicated. That benign anti-febrile specific and preventive of the dreaded scourge is recognized not only within our own boundaries, but in tropic lands far beyond them, where intermittents are fearfully prevalent, to be a sure antidote for the malarial poison and a reliable means of overcoming disorders of the stomach, liver and bowels, of which a vitiated torrid atmosphere and brackish miasmatainted water are extremely provocative All emigrants and travelers should be supplied with it.

FACTS FOR THE PEOPLE.—The following facts are of great importance to the community, and they should be carefully read and acted upon by everybody in the county:

Fact 1. That L. Abrams, to accommodate the public, has "resumed" in the building opposite the Granger store.

Fact 2. That he sells better clothing for less money than anybody.

Fact 3. That he gives satisfaction in quality and fit.

For confirmation of the above facts ask any well dressed man in Reno.*

YANKEE DODGE'S notion store Virginia street, next door to Cunningham & Gibson, where can be found all those little articles so indispensible to every well regulated household. It would be useless to try to enumerate for there is no limit to the assortment. We intend to keep everything that there is a demand for. Trusting our old customers will call again, bring their friends, and for our part we promise to supply their wants at the lowest possible rates. YANKEE DODGE & Co. *

OSBURN & SHORMAKER have received and offer for sale at their old stand all kinds of paints oils and window glass. *

THE WEEKLY JOURNAL

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 4.00 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

ASTONISHING SUCCESS.—It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor dying consumptive, at least to try one bottle, as 40,000 dozen bottles were sold last year, and no one case where it failed were reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try sold at 10 cents. Regular size 75 cents. For sale by all druggists.

HORSES FOR SALE CHEAP FOR CASH. —I have sixteen head of good horses comprising draft horses, buggy horses, and saddle horses; also two fine Norman colts, sired by my Norman horse Barnum; would make good stallions; they are from good blooded mares and are both dark grays. For particulars apply to the undersigned at his farm, or by letter, Reno, Nevada. A. A. LONGLEY.*

FOR THE SUFFERERS—S. Jacob has a large and varied assortment of piece goods and tailors' trimmings, which he will make up at his usual low rates. Now is the chance for the sufferers to get good clothes at a bargain. He has put up a small building opposite Sunderland's boot and shoe store, on Virginia street, where he can be found. *

VERDI PLANING MILL COMPANY.—Are prepared to supply all patrons with everything in the lumber line required in the construction of a building, rough and finished lumber, doors, mouldings, cornice, windows, ect. ect., at the old prices. Any one wishing anything in our line will be promptly supplied by addressing the Verdi Planing Mill Company, Verdi Nevada. *

MILLINERY AND DRESS MAKING.—Mrs. M. A. Harney has opened a Millinery and dress making shop in Dr. Bergman's office, on Second St., near Sierra. I am prepared to furnish everything in my line as before the fire. M. A. HARNEY *

FOR SALE.—At the Reno Nurseries, Reno, Nevada, 100,000 fruit and shade trees, I will sell hereafter by the hundred for cash, at the Nurseries, for one half the usual price.
* STEPHEN CONNER.

GRAND OPENING.—Coleman & Pechner are again in the field, opposite Jim Chambers', east side of Virginia street, where they will accommodate customers, as before the fire, with the best work in the tonsorial line. Satisfaction guaranteed.
* COLEMAN & PECHNER.

TREATS ALL

Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE effects of youthful follies or indiscretion will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN,

These are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weaking of the system in a manner the patient cannot account for. On examing the urinary deposits a copy sediment will often be found and sometimes small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men die of this difficulty ignorant of the cause, which is the second stage of seminal weakness Dr S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs

OFFICE HOURS—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M Consultation free. Thorough examination and advice, $5.
